**Market Analyzer**
Explore, analyze and visualize data across multiple dimensions such as sector, category, and geography, providing data at the macroeconomic, industry and company level, with the ability to add measures for multiple segments and regions in a single search.

**Sector Activity Indicators**
Tracking the movement of stock prices of leading sector specific companies, volume of job postings, financial deals and sentiment of news releases and company filings.

**Product Launch Analytics**
Capturing the latest FMCG launches in the global retail space that stand out from the competition and have the potential to be a disruptive presence in the market.

**Surveys**
Data from polls and surveys related to consumer and enterprise concerns, priorities, adoption trends and outlook for the future.

**Healthcare Provider Dashboard**
Comprehensive and up-to-date information on hospitals, physicians and other healthcare providers for 25 countries.

**Global Ads**
Real-time advertising intelligence for more than 950K adverts and content posts, providing advertising intelligence from the world’s leading brands for over 50 markets globally.

**Company Database**
Integrated view of a company with related market data, reports, insights, deals and fundamental information in one place.

**Smart Money Analytics**
Data and insight on venture investments, identifying who the leading investors are across different regions, countries and trends.

**Themes**
A set of indices monitoring the global evolution of 15 of the most prominent emerging technologies.

**COVID-19 Country Dashboard**
An expansive database, leveraging tools and analytics to understand the full impact of COVID-19 across sectors, regions and companies.

**Macroeconomic Data**
Historical and forecast macroeconomic, socio-demographic and sector intelligence for 200+ countries.

**City Profiles & City Economics**
Socio-economic and demographic intelligence down to the city level for 3,000+ cities across 148 countries globally.

**News Database**
Up-to-the-minute business news, insight and opinion on all industry, regional and company developments.

**Deals Database**
Comprehensive repository providing real-time tracking of latest cross-sector M&A activity.

**Company Filings**
Granular intelligence into the key factors shaping competitor and customer performance.

**Healthcare Provider Dashboard**
Comprehensive and up-to-date information on hospitals, physicians and other healthcare providers for 25 countries.

**Reports**
The latest reports curated by industry experts covering sector activity, Hot Topics, Innovation, Trends and more.

**Real-Time Intelligence**
Latest industry-leading cross-sector analysis delivering actionable intelligence on recent events & announcements.

**Analyst Engagement**
Frictionless access to analysts for further insights when required, and access to regularly scheduled in-depth webinars.

**Thematic Research**
Monitoring and analysis of the top ten themes disrupting industries globally.

**Theme Evolution Indicator**
Tracking the global evolution of the 15 most prominent emerging technologies.

**Macroeconomic Data**
Historical and forecast macroeconomic, socio-demographic and sector intelligence for 200+ countries.

**City Profiles & City Economics**
Socio-economic and demographic intelligence down to the city level for 3,000+ cities across 148 countries globally.

**News Database**
Up-to-the-minute business news, insight and opinion on all industry, regional and company developments.

**Deals Database**
Comprehensive repository providing real-time tracking of latest cross-sector M&A activity.

**Company Filings**
Granular intelligence into the key factors shaping competitor and customer performance.

**Theme Evolution Indices**
A set of indices monitoring the global evolution of 15 of the most prominent emerging technologies.

**Company Database**
Integrated view of a company with related market data, reports, insights, deals and fundamental information in one place.

Introducing GlobalData Explorer

Unique and comparable insights into the world’s largest sectors

Cross-sector Industry Data & Analysis
Users can explore, track and compare industries, economies and companies all on one platform.

1,200 Expert Analysts and Researchers
Tap into the collective knowledge of extensive cross-sector experience and industry insight

One Platform. One Taxonomy
Access real-time information structured into a single taxonomy and navigate comparable data effortlessly

28 Million Data Points
All accessible via powerful and intuitive search functionality
Explore. Track. Compare.

Unrivalled sector, macroeconomic and company coverage that empowers students to explore their discipline with ease.

Explore

Explore cross sector industry intelligence and access unique datasets to spot global trends and gain a complete picture of the industries and market dynamics you’re researching.

Track

Track emerging industry innovations, providing students and faculty with unique and timely insights that sets your research capabilities apart from other educational institutions.

Compare

Access consistent and comparable real-time data, all structured into a single taxonomy, enabling you to compare sectors and market drivers with ease.
Cross-Curricular Academic Solutions

Cross-sector intelligence that can benefit students and faculty from across a range of academic disciplines

An all-in-one business resource
Meet the needs of students and educators from multiple disciplines and departments

Save time
Waste less time researching with a fully intuitive and easy to use platform

Develop knowledge
Encourage greater exploratory learning by providing a best-in-class business information resource

Speed up lesson planning
Incorporate real life examples and keep learning material at the forefront of market developments

Access credible data
And research & analysis for research projects, faculty white papers and student coursework

Position your institution
Differentiate the curricula with thought leadership content and position as a market leader
The Value in Our Academic Solution
Streamline the research process and enable students and faculty to work smarter and faster

Technology Transfers
Identify emerging commercial opportunities; value your IP and profit from the right licensing partners and deal structures

Global Coverage
Providing intelligence to the world’s largest companies, GlobalData’s coverage includes all major sectors, companies and countries

Enrich Academic Research
Help students enhance their academic research with credible, real-time data and insights

Accessibility
Promote anytime, anywhere learning; available on or off campus via simple IP based authentication

Trusted Partner
Give students access to the same intelligence used by blue chip companies globally

Analytics Tools
Access a suite of tools, designed to help you collate and dissect the information you need faster
Supporting a Range of Roles Across Academia

An invaluable resource for your academic courses, faculty members and students

GlobalData Explorer Solution

Overview of the platform, it’s value and how each section helps
→ **Value**

Explore with ease using a powerful and intuitive search interface that enables you to find the content relevant to you and discover connected data and insights that enrich your research objectives.

→ **Description**

Designed to make your market research more effective, the homepage is your gateway to exploring and analyzing all that GlobalData Explorer has to offer.

**Signals**

Filter signals from noise and keep an eye on the signal trendlines that warn you of key industry movements

**Latest Reports & Deals**

Review all the latest reports published on GlobalData Explorer and see the latest deals taking place across all industries covered

**Trending Topics**

Explore the latest trending topics and assess analyst picks all from the homepage
Companies

→ **Value**
A 360 degree view of over 600,000 companies driven by qualitative and quantitative insights enables you to benchmark performance, monitor company activity, and identify M&A opportunities.

→ **Description**
Gain transparency and access a fully integrated view of a company with all related market data, reports, insights, deals and fundamental information in one place. Identify trends or conduct analysis and benchmarking to discover who are the industry leaders, laggards, and disruptors.

→ **Screen Companies**
Use your customized selection criteria to build and refine a bespoke universe of relevant Companies

→ **Access Curated Lists**
Identify the key players across Sectors & Geographies, in addition to the top Advisors & Investors, and the Leaders & Disruptors of emerging tech

→ **Know Your Competition**
Minimize time spent tracking the competition with a ‘one stop shop’ of multiple types of competitor intelligence
→ **Value**
Access all of GlobalData Explorer’s data and insights organized into sector-specific dashboards. Monitor sector trends and track market behaviour, sector value and the key innovations shaping the future of each sector covered.

→ **Description**
Gain a comprehensive view of sector related data and analysis including size, forecasts, recent developments, deals, key companies and reports. Access data and expert analysis, enabling you to spot opportunities and risks early by staying on the pulse of changing sector dynamics.

→ **Monitor Trends**
Keep up to date on essential news and M&A activity and analyse the key themes impacting sectors

→ **Related Reports**
View industry specific reports such as Trends Reports, Trackers, Company Analyses, Deals Activity Reports and analyst opinions

→ **Leading Companies**
Identify the key players within each sector and sub sector with Key Lists of top companies
Protect your business against disruptive threats and determine which themes to invest in and which to avoid. Assess what your competitors are doing in each theme available on GlobalData Explorer and predict the future of your industry.

Through the early identification and tracking of major global disruptive themes, you are able to explore and assess their impact on your business and industry. Expert analysts track themes across all major companies and industries, with GlobalData Explorer providing you with access to the top ten most popular themes.

Deep dive into 10 individual theme pages which are all backed by rich datasets

Insight into the key themes changing industries and the companies driving disruptive innovation

Get a deeper understanding of the global pandemic, how it’s progressing, and what this means for your business
Countries

→ Value
Insights into specific regional activity enables you to learn from the rapidly evolving region-specific disruption trends, while country coverage allows you to learn from unique practices and adoption trends from other regions.

→ Description
Access data and insights on over 200 countries with resources integrated from across GlobalData Explorer into country specific lenses. Keep abreast of emerging trends across a range of topics impacting different geographies through geography-specific news, deals, analysis of market players, and market and product databases.

+ Discover Countries
Select individual countries, grouped by geographies, to enable easy navigation and comparison

+ Related Reports
Access analyst reports assessing insight and trends connected with each country

+ Macroeconomic Reports
Access macroeconomic reports to gain analyst insight and city profiles to get a richer picture
Reports

→ **Value**
Understand the trends and insights that are driving change and innovation across industry sectors, and identify the disruptive themes, players, and technologies impacting industries in the medium and long term.

→ **Description**
Access a huge range of report resources, providing expert opinion and insight into the past, present, and future of 22 industries including 120+ sub-sectors. Get a broad view with macro analysis, or focus on sector specific market drivers and trends.

**Analyst Opinions**
Analysis covering key issues and hot topics, taking a critical eye to industry developments

**Deal Reports**
Updates on trends in investments and acquisitions, showing where the smart money is going in banking and payments across the world

**Sector Reports**
Analysis of an industry, sector or category within a specific country
**Value**

Track the executive movements and strategic actions of peers, partners and competitors with up-to-the-minute business news, insight and opinion on developments. React to breaking news before your competitors to establish and maintain a competitive edge.

**Description**

GlobalData Explorer’s News Dashboard combines Artificial Intelligence and human insight to provide the most accurate and relevant industry intelligence in real-time. Minimize time spent searching for information by having instant access to a wide range of relevant news sources.

**Refine News**

Filter news by Industry, Sentiment, Geographies, Companies and Time Period

**News Analytics**

Search for specific news content and drilldown into the results with the Results Analytics tool

**Key Trends**

Discover the key trends that are being discussed most in the news
→ **Value**

Access a suite of functional tools, tailored to your requirements and designed to help you collate and dissect the information you need faster.

→ **Description**

Each tool reduces the time required to answer the critical questions shaping your strategy and driving day-to-day success.

→ **Build Your Own Report**

Clip and create your own bespoke reports to share with colleagues using the most relevant chapters, figures, and tables that you have clipped from across GlobalData Explorer.

→ **Competitive Intelligence**

Create watchlists of companies to track and compare essential company information to understand competitor motivations and behaviors.

→ **COVID-19 Playbook**

Shore up your company’s response to COVID-19 and be guided through a four step process to assess business risk.
GlobalData Explorer
Databases

Discover the databases available
Market Analyzers

→ Value
Analyze indicators for various markets across the globe along with their underlying macroeconomic fundamentals. Access in-depth market facts, ranging from the global to the micro level, helping you to identify winning market opportunities.

→ Description
Explore, analyze and visualize data across multiple dimensions such as sector, category, and geography. A single platform that provides data at the macroeconomic, industry and company level, with the ability to add measures for multiple segments and regions in a single search.

+ Spot Opportunity
Identify which sectors are the fastest growing in a particular country

+ Confirm with Underlying
Confirm your industry trends with underlying fundamentals in the respective economies with >700 macroeconomic measures for >200 countries

+ Track From All Relevant Views
Analyze markets across relevant dimensions for each sector, including channels, technologies, specialties, service types, product categories and much more
Company Filings Analytics

→ Value
Eliminate time from the competitor and customer tracking process, and access intelligence that keeps you ahead of the industry curve. Keep up to date with company announcements with instant access to all of the related company filings in one place.

→ Description
Leverage Artificial Intelligence (AI) to access timely, gold standard and granular intelligence into the key factors shaping competitor and customer performance.

+ Company Filings
Never search for filings again with all filings stored in one place, saving you and your team time

+ Sentiment Scores
Gauge if management and analyst scores match up, with sentiment drivers for all transcripts and documents

+ Easily Filter Results
Filter by most mentioned products, brands, geographies, companies and themes to indicate key focus areas and priorities
→ **Value**
Identify and track the key disruptive trends that are keeping the top digital thought leaders talking.

→ **Description**
50+ influencer dashboards help you track social media (Twitter and Reddit) discussions led by key opinion leaders on the disruptive technologies and macro forces that shape the world. Access 10M classified and tagged tweets each month that have been processed by advanced AI techniques.

**VC Influencers**
Identify and track the trends that are keeping the top digital venture capital thought leaders talking

**CEOs Influencers**
Identify and track discussions led by the CEOs of the top global companies

**DisruptiveTech**
Gain insight into the major disrupting players in the Tech space; an early warning system driven by business-to-business thought leaders
→ Value
Uncover hiring activity to predict the strategic movements of the selected companies.

→ Description
Access job listings from the career pages of 15K+ companies with over 2M active jobs, each tagged to Themes, Geographies, Sectors and more. Understand what roles/functions a company is hiring for, and discover what this means in terms of the risks they are preparing for and their strategic focus.

+ Active Job Openings
Determine the strength of company’s of interest: are they actively hiring?

+ Themes
Predict their strategy by seeing which themes they are investing in

+ Geography
Spot early if they are expanding to different markets or opening up new production plants
→ **Value**

Never miss out on a deal with access to sector-specific insights, enabling you to uncover the latest competitor deal activity, deal value and volume trends, analytics, league tables and detailed profiles of investors and advisors.

→ **Description**

Track market activity with a database of global mergers and acquisitions, private equity deals, venture finance deals, private placements, IPOs and partnerships.

+ **Monitor Investment Activity**

Identify hotspots of investment activity and capitalize on investment opportunities

+ **Smart Money Analysis**

Determine where money is flowing and understand which companies the smartest investors are buying

+ **Themes Showcase**

See the number of deals taking place by theme and their total value
COVID-19 Country Dashboard

→ Value
Understand the global progress of the pandemic in more detail with daily news, research, and opinions to help you plan a winning strategy for your business. Assess the ongoing impact on countries that are most relevant to you and understand how specific markets are being shaped by the pandemic.

→ Description
Access an expansive database and leverage tools and analytics to help you understand the full impact of COVID-19 across sectors, regions and companies. A dynamic, real-time tracker, tracking key indicators for 50 countries majorly affected by COVID-19.

+ Country Comparison
Generate graphs that lets you compare the impact that the pandemic is having on different countries

+ Monitor Developments
Monitor the fast-changing developments around the pandemic and their effects on your business

+ The ‘New Normal’
Understand how to position your company for the ‘new normal’
Macroeconomic Database

→ **Value**
Conduct comparative analysis of macroeconomic and industry drivers for over 200 countries, with access to circa 1,000 measures including macroeconomic and industry-related macro data.

→ **Description**
Build and back your market analysis with underlying macroeconomic fundamentals. Understand correlations between markets of interest and multiple macroeconomic indicators with over 60 years of data for key datasets. Find systemic reasons for market trends and let your clients know if they need to stay in, move from, or enter into new regions.

**Countries**
Assess over 700 macroeconomic indicators for over 200 countries

**Sectors**
View over 250 underlying macro indicators for 10 key industries

**Dimensions**
Analyze measures across economy, demographics, labor force & employment, education, environment and households & income
→ **Value**
Understand the socio-economic and industrial behavior driving urban growth with detailed analysis on almost 200 of the most prominent cities in the world.

→ **Description**
Over 300 indicators for each city, covering macroeconomic and sociodemographic factors that will impact your business decisions.

**Business Environment**
Access expert analysis enables you to gauge the business environment of major cities worldwide.

**Forecasts to 2025**
And all data starting from 2000, making geographic statistical analysis more robust.

**Latest Deals**
Discover the latest deals connected to the city that you’re reviewing.
City Economics

→ Value
Compare the world’s most important cities, with comprehensive socio-economic data and forecasts for more than 3,000 cities across the globe.

→ Description
The most complete database of city intelligence in the world with indicators across five categories per city: demographic, economic, employment, Household & income, and expenditure.

+ Global Overview
Drill down into city economic data and forecasts through an interactive world map

+ Demographic Analysis
Uncover key demographic trends and make insightful city comparisons

+ Labor Analysis
Assess current and historical employment rates and assess forecasts up to 2025
Value
Assess the leading brands’ advertising themes and trends in order to respond to competitor messaging and position your client’s brand more effectively. Benchmark your advertising campaigns against product category leaders and explore their advertising messages and claims.

Description
An easy to use, real-time database providing advertising intelligence for more than 950K adverts and content posts. Access real-time advertising intelligence from the world’s leading brands for over 50 markets globally.

Multi-channel Advertising
Assess paid content from TV and print media, to brand-owned communications via social media such as YouTube, Facebook and Weibo

Refine Searches
Filter through almost a million ads by brand, country, company, date, media type and Ad ID

Watch Ads
All video media ads can be watched within GlobalData Explorer
Gauge consumer and business professionals’ sentiment using a mix of sector surveys and COVID-19 polls data. Make better, more informed business decisions by leveraging current consumer and business insight.

Access data from polls and surveys related to consumer and enterprise concerns, priorities, adoption trends and outlook for the future; complemented by relevant survey driven analysis and insights.

Investigate survey responses with interactive data models that allow you to filter datasets by sector, region, country, gender, age and more.

Understand how prepared industries are for the digital disruption that is coming their way.

Repository of live and closed polls primarily related to the COVID-19 situation.
**Theme Evolution Indicator**

**Value**
Track the evolution of the disruptive technologies space and monitor activity trends, along with insights into the strength of companies offering these technologies.

**Description**
Track the global evolution of the 15 most prominent emerging technologies, allowing you to identify underlying technology trends and invest in the right themes. Gain a consolidated view on the strength of the companies offering these technologies and the confidence of their investors, ensuring that you build only the most successful investment strategies.

**Trending Themes**
Invest in the right themes by comparing which themes are trending.

**Deal Momentum Index**
Identify investment flow and trends across regions for tech themes by evaluating venture financing deals.

**Funding by Region Index**
Recognize the geographies where a tech theme is in major growth versus areas of slower investment.
Sector Activity Indicators

→ **Value**
Gain a consolidated view of the current health of industry sectors and assess your own position versus the market. Monitor the overall health of each sector and compare up to four sectors at a time.

→ **Description**
Track the movement of stock prices of leading sector specific companies; the volume of job postings and financial deals; and sentiment of news releases and company filings. Our composite index allows you to incorporate any combination of these to create a single index to view the overall health of the sector.

+ **News Sentiment**
Track positive and negative sectoral sentiments based on news articles by each company

+ **Company Filings Sentiment**
Monitor an aggregated view of positive and negative sentiment within earnings filings and transcripts each quarter

+ **Deals Index**
Track the volume of financial deals by type; M&A, PE and VC, and overall
**Smart Money Analytics**

→ **Value**
Tracking thousands of sources on a daily basis and leveraging robust technology, Smart Money Analytics searches, identifies, analyzes and visualizes venture investments to give you a unique insight into the global Fintech market.

→ **Description**
Providing data and insight on venture investments, discover who the leading investors are across different regions, countries and trends. Access a comprehensive database of fintech deals, including historic data starting from 2014, to pinpoint the investment activity that interests you.

+ **Geographic Coverage**
Spanning 69 major markets across all regions, see the investment activity per country, the sub-sectors receiving investment, and the VC Firms investing

+ **Funding Rounds**
Assess month-on-month deal volume and deal value by funding round

+ **VC Strategy**
Identify the investment strategy of 1,000s of Venture Capital firms operating within the fintech market
Product Launch Analytics

→ **Value**
Generate product innovation ideas and identify gaps and opportunities by analysing the latest on-trend product launches from over 50 markets around the world. Monitor the most innovative launches across categories and geographies and understand which products highlight the direction of future innovation.

→ **Description**
Capturing the latest FMCG launches in the global retail space that stand out from the competition and have the potential to be a disruptive presence in the market. The database tracks 1,000 new innovations per month, delivering daily insights on latest in-store product innovations.

+ **Product Innovation**
Over 20 searchable fields lets you identify the innovative product features that are being launched in your category

+ **Consumer Sentiment**
Access consumer surveys integrated into product reports; a powerful feature that links innovation to consumer sentiments

+ **Brand Innovation**
Find out which brands are most actively innovating in a given country and category
Tenders

→ Value
A machine-driven global contracts and tenders intelligence database providing you with timely and informed decision making on business opportunities.

→ Description
Publishing over 1.25 million tenders and contracts per year, tracking 3,000 sources across 177 countries, the database contains over 15 million tenders and contracts, with an average weekly publication of over 22K tenders.

+ Advanced Search
Utilize powerful search functionality to identify tenders based on industry, geography, contract value, vendor name, client name and more

+ Access Contacts
Search, through multiple parameters, a directory of over 150K contact details for executives handlining procurement

+ Evaluate Bids
In the Tender View, the Evaluate Bid option lets you rate tenders on 6 parameters, giving you a Go/No Go result, according to your thresholds
**Value**

Better understand global hospital networks and assess the healthcare infrastructure trends, partnership opportunities, and M&A activities taking place.

**Description**

Access the most comprehensive and up-to-date information on hospitals, physicians, and other healthcare providers for 25 countries, representing 58% of the world’s population. Coverage includes; financials, contact details, type of hospital, supplier details, procurement cycles, payors affiliated with the healthcare facilities and more.

**Track the Funds Flow**

Identify the suppliers and payors of each hospital and track the funds flow.

**Understand trends**

Understand the healthcare infrastructure trends taking place by country, region or hospital type.

**Hospital Ownership**

Identify the owners of each hospital, and access contact information.
